

Jan Prunk

Computer Systems & Network Administrator, IT Consultant

janprunk@gmail.com

Summary

I am available for computer system administration, consulting, support and quality testing. I am interested in telecommuting by offering remote assistance. If you need local presence, I am willing to assist locally. I can manage various tasks, including obtaining and building the required hardware, installing and configuring the operating systems, network and services. I am interested to learn about new technologies. My communication skills include: help desk support, telephone support, troubleshooting, writing and customer relations.

Skilled with:

Computer hardware: servers, personal computers, notebooks, single-board computers, embedded systems, smartphones, tablets, vintage computers

Network hardware: Cisco/Mikrotik switches and routers

Primary OS: Debian GNU/Linux, Other OS's: Ubuntu and other GNU/Linux distributions, NetBSD, Microsoft Windows, Cisco IOS, Mikrotik RouterOS, OpenWrt
